Armageddon Rock is Highrider's debut EP that is released 18th of March. The Gothenburg based Swedes deliver a cinematic heavy metal attack in four punches. 21 minutes of larger than life organ driven nuclear rock music that makes Armageddon Rock into a sonic blast out. A dystopian message contemplating the downfall of human civilisation delivered with powerful energetic catchy melodies. The music is heavily based on the organ, providing lot's of space for heavy riffing, solo's and Andreas Fagerbergs vocals to create a debut Ep of modern US influenced heavy metal.
