Through Ages of Sleep is Siberian's second theme-based album in their "Age Trilogy", set to be released 24th of February. The Swedish three-piece mixes influences from american sludge and scandinavian metal and have created a unique wall of sound. The album is written and based on band members Gus Ring, Linus Marron and Daniel Eklöw own dreams during a 2 years period. Thanks to the wide spread of genres the band have captured many audiences from different scenes. Adding Gus Ring's powerful and haunting vocals with mixtures from traditional eurasian folk music, makes Through Ages of Sleep an album with direct impact.
